# TourTurf® Excel Activator

Oxide: 18-2-12 + 1 % Fe - Tee/Fairway Grade

## Mineral fertiliser with an organic base. Optimal growth on sports turf.

TourTurf® Excel Activator 18-2-12 is a mineral NPK-fertiliser with an organic base for all turf on golf courses, football pitches and in landscaping.

This product is an effective fertiliser with an organic base that is economical, environmentally friendly and easy to apply. Gives even growth and colour.

Gradual release of nutrients with slow release effect. Humus substances have a positive influence on biological processes.

Increased fertiliser performance over straight mineral fertilisers. The organic carrier material helps to delay the release of some of the nutrients, preventing excessive top growth and improving microbial activity in the soil.

TourTurf® Excel Activator is enhanced with iron, calcium and sulphur, which strengthens the cell walls of grasses and increases the resistance to soil pathogens causing fungal diseases (e.g. dollar spot) and other stress factors. The fertiliser has an acidifying effect, making key nutrients, responsible for healthy growth, more plant available.

### Guaranteed content

Total Nitrogen (N) .....	18.0%
- of which Ureic (N) .....	10.6%
- of which Ammonium (N) .....	7.4%
Citrate-soluble phosphorus (P <sub>2</sub> O <sub>5</sub> ) .....	2.0%
Water-soluble potassium (K <sub>2</sub> O) .....	12.0%
Calcium (CaO) .....	1.5%
Iron (Fe) .....	1.0%
Sulphur (SO <sub>3</sub> ) .....	12.5%
<b>Other elements:</b>	
Organic material* .....	3.0%

Apply before rain or irrigate after application.

pH: 3.2

The product is low in chlorine.

\* Plant based ingredients

### Application

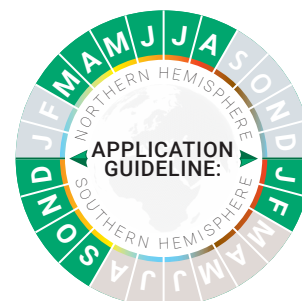

As needed.

200-300kg/ha.

Mini 1.5-2.5mm (SGN 200)  
Maxi 2-4mm (SGN 330)

### Order number

Maxi: 8797SK  
50 x 20kg bags per industrial pallet

Maxi: 9797P | Mini: 9788P  
600kg big bag
