# TourTurf® Organic Balanced

Oxide: 10-5-15 + 2 % MgO - Greens Grade

## An organic-mineral fertiliser with microorganisms. Balanced growth for all turf areas.

TourTurf® Organic Balanced is an organic-mineral NPK-fertiliser with organic nitrogen, urea and ammonium. Optimal for fertiliser use over the summer, where even growth with strong turf plants is desired. Produces a healthy green turf colour and strong roots.

This product is more than just NPK! It contains a superior microorganism package, including *Bacillus* spp. and *Pseudomonas* sp., as well as amino acids, magnesium, iron and seaweed extract. The beneficial microorganisms can help to release nutrients in the soil, and they compete with harmful pathogens causing turf diseases (e.g. dollar spot). The easily digestible organic material, containing organic carbon, serves as an energy source for beneficial soil microbes. The process of mineralizing organic matter can have a slightly acidifying effect, increasing Nutrient Use Efficiency (NUE), especially in high-pH soils.

Our microorganism strains are fully traceable via genomic analysis (DNA fingerprint).

This product is made of, among others, circular ingredients such as: vinasse extract, cacao shells, pulp of vinasse extract, seaweed meal.

### Guaranteed content

Total nitrogen (N) .....	10.0%
- of which Organic nitrogen (N) .....	4.0%
- of which Ureic (N) .....	4.0%
- of which Ammoniacal (N) .....	2.0%
Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	5.0%
Potassium (K <sub>2</sub> O) .....	15.0%
Magnesium (MgO) .....	2.0%
Calcium (CaO) .....	4.0%
Iron (Fe) .....	1.0%

#### Other elements:

Seaweed .....	1.0%
Amino acids ( 16 in total ) .....	25.0%
Organic Carbon (C) .....	18.6%
Organic matter .....	24.8%
Total carbohydrates .....	25.0%
Circular content .....	56.0%

#### Plant strengthening microorganisms:

<i>Bacillus</i> spp (x5) .....	2.0x10 <sup>6</sup> cfu/g
<i>Bacillus polymyxa</i> (x1) .....	1.25x10 <sup>4</sup> cfu/g
<i>Pseudomonas</i> spp (x2) .....	4.2x10 <sup>4</sup> cfu/g
Total .....	2.0x10 <sup>6</sup> cfu/g

pH: 4.6

Optimum product performance between 15 and 30 °C.

### Application

2-4 times a year. Apply when temperatures are above 10°C.

250-350kg/ha.

SGN 100

### Order number
